

Family Sessions

PratoPhoto

Prep

To make sure you and your fam are prepared and confident that we will get the best photos, I've put together this outline so we all know exactly what we are getting into!

How to Pose During Your Photo Session

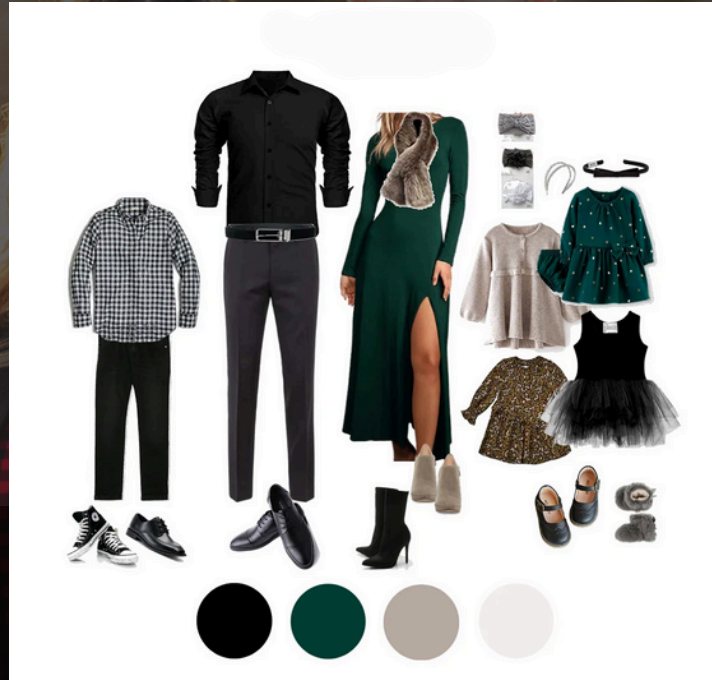

1. Don't force the "cheese" smile! Instead, try and be silly with each other and make yourselves laugh. I'll also do my best to get those natural laughs from you!
2. Laugh, play, tickle, and snuggle. This is how we'll capture the REAL moments.
3. Not everyone has to be looking at the camera. Actually, I usually encourage my gentlemen not to look at the camera. (they seem to prefer that, as well!) I like to especially encourage my dads to focus on their partners and their kids.
4. When in doubt, just smile and look at your family lovingly.
5. Stand close together. Actually, as close as possible :)
6. Relax, slow down, and don't force anything. Don't feel pressured to make everything perfect! Just be present with your family and I'll do the rest.
7. Expect me to move you around to different spots to capture images. The more variety we get, the bigger your gallery and the more great shots we have the opportunity to create together!

Things to Avoid

No runners, T-shirts, or shirts with writing on them!

Don't wear matching clothes, try wearing complimentary colours and styles like the next slide!

Outfit Coordination

Please do your best to coordinate colours and styles with your group! I've attached some examples for you. Dress accordingly for the weather too as we will be outside for the entirety of the shoot!

What to Expect After Your Photo Session:

After your session, your work is almost done! You can let your hair down, put your feet up, and relax a little bit.

1. After your session, I will be working hard behind the scenes to cull the best photos (eliminating duplicates, blurs, and blinks)
2. I'll deliver your photos within a few weeks via pic-time to ensure you can get some cards/prints out in time for the holidays!
3. Look online (such as Pinterest) for ideas about wall gallery displays. There are tons of beautiful ideas for every style and budget. In your online gallery, you can conveniently order high-quality prints, framed photos, and canvases.

Last step to complete your portrait experience: **Enjoy your photos!** I can't wait to help you create something beautiful, timeless, and meaningful, just for your unique family.

And that's it! The complete checklist for guiding you through your family photography session. Thank you for choosing me to be your trusted photographer. I can't wait to hangout with your family and leave you with beautiful photos you will love for decades to come.

**Thank you, we look
forward to working with you.**
